- A Service Of -

LIFE QUALITY INSTITUTE

advancing palliative care

How many times have you spoken with a sick friend and said "just call me if I can do anything". Do they ever call? Of course not! People that are caring for seriously ill family members need the help of their friends and family to do *something*, they just don't know what, and if they do know what, they just hate to ask. Friends, family, and neighbors who ask if the caregiver "needs anything" really do want to be of assistance, they just don't know *what, how, or when* to help.

Welcome to TeamCaring.org. Here's how it works:

- Click on the "Want To Start Your Own Caring Team?" button. The website will ask you a few questions, then send the information to TeamCaring.org.
- TeamCaring.org will assist you by creating a password-protected site with your own calendar, phone book, email, task list, message board and more.
- You can create user IDs for anyone who is going to be a member of the team. Everyone on your team can log on to your website.
