

# Huntington's Disease PROGRAM

*CareOne at Lowell*

A Senior Care Company®

## On the Forefront of Huntington's Disease

We have created a unique specialized program to manage the advancing symptoms of Huntington's Disease (HD) and their accompanying emotional, motor, and cognitive problems. Our treatment focuses on maintaining each resident's comfort, dignity, and individuality. Founded in 1987, our program was one of the first of its kind. Today, it is recognized among the country's foremost treatment programs.

## Treatment Philosophy and Approach

We believe that people with HD should maintain their maximum levels of functionality for as long as possible. Our highly experienced staff is dedicated to a common goal: to provide our residents with the care, support, and assistance necessary to achieve the highest quality of life in the most compassionate, least restrictive setting.
