Dear Friends of HDSA,

2020 was a year filled with challenges, but it has definitely made us stronger. At HDSA we evolved to strengthen our connection to HD families through virtual events and resources without losing the inspiration and hope that the HDSA community provides — and requires.

Thanks to the inspiring generosity of our donors, HDSA did not cut any of the vital support services that HD families need, especially during the pandemic.

As we look for the silver lining in the challenges we have faced, HDSA has become experts in virtual events and online support resources. Our telehealth program and online support groups helped record numbers of families, while our comprehensive website www.HDSA.org recorded more visits than ever before.

Despite the challenges, we never wavered in our pledge providing more resources to HD families around the United States and funding vital HD research. In early 2020, we expanded HDSA’s Center of Excellence program to a record 50 HD care teams with six satellite sites across the country. We funded four research grants under the Society’s largest research initiative, the HDSA Huntington’s Disease Human Biology Project. We also awarded Dr. Yasaman Gholamaliipour from the University of Massachusetts Medical School with the prestigious Berman-Topper Family HD Career Development Fellowship, and we named five 2020 Donald A. King Summer Research Fellowships, a vital program to train the next-generation of scientists with research expertise in Huntington’s disease.

Although we would have loved to have seen everyone in New Orleans for the 35th Annual HDSA Convention, we quickly transitioned to a completely virtual event which welcomed more than 6,200 live viewers from 93 countries! This record-setting participation was made possible by the commitment of our speakers, exhibitors and sponsors and the dedicated volunteers who ensured that the help and hope that defines HDSA’s Conventions was preserved and expanded in this new format.

The critical mission work of HDSA is made possible by the fundraising of our dedicated volunteers. From scavenger hunts and wine tastings to Virtual Team Hope Walks and Celebrations of Hope, HDSA’s amazing community continued to raise much needed funds to support our programs of education, support, advocacy and research. Events like the virtual 6th Annual Freeze HD event, generated the exceptional resources and visibility that keeps HDSA’s mission work strong, even during the hardest times.

Thank you for your continued support in the fight against Huntington’s disease.

Sincerely,

Louise Vetter
President & Chief Executive Officer
HDSA Centers of Excellence

Early in the year, the Huntington’s Disease Society of America announced that fifty outstanding Huntington’s disease care facilities were awarded the designation of HDSA Centers of Excellence for 2020. The 2020 HDSA Centers of Excellence program expanded to 50 Centers from 47 in 2019, and from just 20 in 2015. The four new Centers of Excellence are: Henry Ford Hospital (Michigan), Stony Brook University Hospital (New York), University of Kansas Medical Center, and the University of Miami (Florida). The HDSA Centers of Excellence are multi-disciplinary care teams with expertise in Huntington’s disease that share an exemplary commitment to providing comprehensive care.

The strategic expansion of the Center of Excellence program allows HDSA to increase access to expert HD clinical care and clinical trial opportunities to more families across the United States. With new Centers in Florida, Kansas, Michigan, and New York, HDSA now offers care locations in 33 states plus the District of Columbia. HDSA awarded a total of $1,550,000 to the Centers of Excellence program.

To learn more about HDSA’s Centers of Excellence program please visit HDSA.org/COE.

First HD Patients Dosed In uniQure Gene Therapy Study at HDSA Center of Excellence

In June, the first two patients were dosed in the world’s first gene therapy study for HD. On June 19th, uniQure announced in a press release that two brave participants had undergone the brain surgery required to deliver the experimental huntingtin-lowering therapy AMT-130. The surgeries took place at the Ohio State University’s Wexner Medical Center, which is a designated HDSA Center of Excellence. The drug is a harmless virus that contains the instructions to create a genetic weapon, a micro-RNA, that stops the huntingtin message from creating new toxic protein. This is a small and slow-moving safety trial, with 26 planned participants who will be followed closely for up to five years.

Dr. Yasaman Gholamalipour

AMT-130 is injected into the striatum, a deep part of the brain affected in the early stages of Huntington’s disease.

2020 Berman-Topper Family HD Career Development Fellowship

In May, HDSA announced that Dr. Yasaman Gholamalipour from the University of Massachusetts Medical School was awarded the 2020 HDSA Berman-Topper Family HD Career Development Fellowship.

This prestigious fellowship, made possible due to the generosity of the Berman and Topper families, provides up to $80,000 of funding per year for three years to young scientists and clinicians who desire to make Huntington’s disease part of their long-term career plan.

“On behalf of the Topper and Berman families, I would like to congratulate Dr. Gholamalipour on being named the 2020 recipient of this fellowship,” said Michael Berman.

“Dr. Gholamalipour joins a terrific group of young scientists who have added both knowledge and enthusiasm to the field of HD research, and we are sure that her contribution will be significant.”

In May, HDSA announced the recipients of the 2020 Donald A. King Summer Research Fellowships, a vital program to train the next-generation of scientists with research expertise in Huntington's disease.

The purpose of this fellowship program is two-fold: first, to attract the brightest young scientists into the field of Huntington's disease research and second, to facilitate meaningful HD research to clarify the biological mechanisms underlying HD pathology.

Applicants are evaluated by the quality of their personal academic achievements, mentoring plan, experimental design, and the feasibility of achieving their scientific goals in a short summer timeframe.

After rigorous review by the HDSA’s Scientific Advisory Board, five young scientists, the most in the history of this program, were awarded 2020 Donald A. King Summer Research Fellowships.

HDSA Announced Five Winners of 2020 Donald A. King Summer Research Fellowship

Sophia Friedman
Wellesley College
Sophia completed her project at the Massachusetts Institute of Technology with David Housman, PhD, exploring genes known to alter the onset of Huntington’s disease symptoms.

Amber Keith
University of California at Irvine
Amber worked under the guidance of Sarah Hernandez, PhD, a 2017 HDSA Berman-Topper Career Development Fellowship recipient, in the laboratory of Dr. Leslie Thompson, to develop a model of the blood-brain barrier derived from human cells.

Lav Patel
Ohio State University
Lav spent time in the lab of Richard Fishel, PhD, to visualize DNA repair proteins that affect the expansion of CAG repeats.

Tasneem Sadok
University of California at Los Angeles
Tasneem worked with Lindsay DeBiase, PhD, to study how changes in energy production affect the brain’s support cells in areas vulnerable to HD.

Kadambari Vyas
University of Central Florida
Kadambari was mentored by former HDSA Human Biology Fellow Dr. Amber Southwell and will study aggression in mouse models of Huntington's disease.

HDSA Awards Four 2020 HD Human Biology Project Fellowships

In December, the Huntington’s Disease Society of America announced that four research grants were awarded under the Society’s largest research initiative, the HDSA Huntington's Disease Human Biology Project. These grants represent HDSA’s patient-centric research focus which brings basic and clinical researchers together to facilitate Huntington’s disease science in the human condition — instead of in animal models — with the direct participation of people affected by HD.

“The HDSA HD Human Biology Project was created to enable scientists to better understand Huntington’s disease in people,” said George Yohrling, PhD, Chief Scientific and Mission Officer at HDSA. “Our 2020 fellows were selected by the Scientific Advisory Board at HDSA because their work holds the promise of filling critical gaps in our current knowledge of HD.”

HDSA received applications from researchers all around the world. Ultimately, grants were awarded to research fellows from Australia, Canada, Germany, and the United States.

Below are this year’s grant winners and project titles.

Melanie Alpaugh, PhD
Université Laval, Quebec City, Canada
“Interrogating Blood Samples from Huntington’s Disease Patients to Better Understand Cognitive Impairments”

Simon Laganiere, MD
Harvard Medical School, Boston, United States
“Identifying Novel Neuroimaging Biomarkers in Early Pre-Manifest Huntington’s Disease”

Yifat Glikmann-Johnston, PhD
Monash University, Melbourne, Australia
“Targeting the Huntington’s Disease Gut Microbiome”

Bjoern von Einem, PhD
University Hospital Ulm, Ulm, Germany
“Feasibility of Assessing mHTT and wtHTT mRNA Levels in CSF-Derived Exosomes”
HDSA Films Presents

Allie & Joe

HDSA Films present a powerful short film about sports reporter Allie LaForce and major league pitcher Joe Smith. The couple discuss Huntington’s disease and their journey through PGD-IVF to have an HD-free child.

Watch the film at HDSA.org/allieandjoe

ABC News Story on Huntington’s Disease

On July 3rd, ABC News collaborated with HDSA to produce a powerful story on Huntington’s disease. The 16-minute segment featured ABC News’ anchor Linsey Davis following two families grappling with the rare genetic disorder.

You can see this video at HDSA.org/abcnews20

HDSA Introduces HDSA’s Coffee Walk YouTube Series

HDSA hit the streets this year armed with a coffee and a camera to ask HD questions.

You can see episodes of HDSA’s Coffee Walk at HDSA.org/coffeewalk

Ito Smith ‘Socks It’ to HD

 Atlanta Falcons running back, Ito Smith, supported HDSA through the NFL’s #32Team32Socks campaign. The initiative invited a player from all 32 NFL teams to design a pair of socks to support their favorite nonprofit organization. Ito’s socks raised $500 for HDSA. Thank you Ito!

Guthrie Family Reunion

On May 28th HDSA partnered with the Woody Guthrie Center for Woody Guthrie’s “Family Reunion” presented by Woody Guthrie Publications Inc. Woody Guthrie Publications hosted this virtual concert which raised more than $1300 to support the fight against HD. This incredible night featured wonderful music performances from Guy Davis, Mary Gauthier, Eliza Gilkyson, Sarah Lee Guthrie, Jaimee Harris, Patterson Hood, Miner, Joel Rafael and Marc Scibilia.

Founder’s Day Of Giving Raises More Than $48,000

Back for its second year, HDSA’s Founder’s Day of Giving paid tribute to our founder Marjorie Guthrie on September 18th, fifty-three years after she founded the Committee to Combat Huntington’s Disease — today’s Huntington’s Disease Society of America (HDSA). Thanks to an anonymous donor matching the gifts, the 2020 Founder’s Day of Giving raised $48,592!

Marc Scibilia Celebrates 80th Anniversary of Woody Guthrie’s This Land Is Your Land

Singer/songwriter and dear friend of HDSA, Marc Scibilia, performed a special rendition of the Woody Guthrie classic, This Land Is Your Land. This year marked the 80th anniversary of the release of this iconic song. Marc’s exclusive performance can be viewed on HDSA’s YouTube Channel.

HDSA’s Coffee Walk with Clare Dunn

On July 21st, country music star Clare Dunn took part in The Guthrie Sessions at HDSA to support the fight against HD. The night featured incredible new music from Clare and she welcomed guests to a virtual backstage afterparty where she could chat with fans via Zoom. The night raised more than $1,500 for HDSA. HDSA also held two other virtual Guthrie Sessions featuring the bands BAILEN and The Barefoot Movement.

Check out The Guthrie Sessions at HDSA series at hdsa.org/guthriesessions

2020 HIGHLIGHTS
Virtual Sixth Annual Freeze HD Event Raises More Than $223,000 for HDSA

A global audience of nearly 4,000 tuned into the Virtual 6th Annual Freeze HD event on Saturday, September 26th which raised more than $223,000 to support the fight against Huntington’s disease. Due to the COVID-19 pandemic, the Huntington’s Disease Society of America transitioned the world’s largest and most-anticipated HD fundraising event to a virtual format. Hosted live by actor Scott Porter from a secure location in Los Angeles, Freeze HD featured an incredible online auction, live music with Brian Logan Dales from The Summer Set and dozens of videos from celebrities offering their support in the fight against HD.

“Each year, Freeze HD is a star-studded call to action to stop Huntington’s disease in its tracks. While we missed gathering in person, hosting the event virtually reached the global HD community and allowed more families to connect and be inspired in this fight,” said HDSA’s President & CEO Louise Vetter. “This was a Herculean task by our event founders Marianna Palka and Jason Ritter, and the entire Host Committee, who donated their time and immense talent to make Freeze HD such a success.”

The event honored the lives of Hurumia Chidinma and Terry Paika and featured appearances by Shakira Barrera, Wilson Bethel, Rachel Bilson, Alison Brie, India De Beaufort, Tom Ellis, Noel Fisher, Courtney Frier, Neil Gaiman, Kimmy Gatewood, Seth Green, Rebekka Johnson, Bryce Dallas Howard, Allie LaForce, Rachel McAdams, Kate Miner, Jaylen Moore, Lamorne Morris, Marianna Palka, Gayle Rankin, Jason Ritter, Joe Smith, Rod Man, Britney Young and many more. There were also extraordinary music performances by Zac Barnett, Shoshana Bean, Brian Logan Dales, Leslie Powell, The Edge Effect and Tyson Ritter. The bidding in the Virtual Auction was fierce up until the last second. 2,037 bids were placed throughout the evening on more than 100 auction items, but the most coveted was a Supernatural television series memorabilia package donated by Jared Padalecki that garnered 193 bids!

Immediately following the Freeze HD program, guests who donated at least $50.00 were invited to an exclusive VIP Afterparty hosted by comedian Rod Man. The hour-long Zoom event featured an opportunity to meet Kate Miner, Marianna Palka, Scott Porter and Jason Ritter, as well as take part in a fun trivia game that gave away a $100 Amazon gift card to the winner.

Thank you to the Freeze HD Host Committee: Angeline Cabral, Jessica Cain, Kipenzi Chidinma, Chris & Lisa Davis, Brian Logan Dales, Blake & Jenne Coler-Dark, Jessica Etting, Matt & Courtney Hamilton, Gentille Koosed, Jaylen Moore & Britt Logan, Justin & Kate Miner, Elliott & Tracy Owen, Kesley Porter, Carly Ritter, Nancy Morgan Ritter, Tyler & Lelia Ritter, Emily & Jamie Rodgers, Alana Yankowitz and Jason Ziven.

Virtual Marathons

Stacy Coen, who comes from an HD family and is a member of the HDSA’s National Board of Trustees, did not let the COVID-19 pandemic stop her from running 26.2 miles. Although the 2020 New York City Marathon was cancelled, Stacy still raised more than $10,425 to support the fight against Huntington’s disease. Thank you Stacy!

HDSA’s ‘Team Run for HD’ raised more than $39,400 virtually at the Chicago Marathon. Thank you to HDSA’s four dedicated members: Laura Rouse, Claire Sanders, Gail Shurlow and Maddie Snowdon.

One Dime at a Time!

Michigan-native Ashley Greenway reached her goal of $10,000 by collecting soda cans throughout her community. In Michigan, each returned can is worth ten cents. She collected cans throughout the year from her entire town. She would do pick-ups from neighbors and friends almost every day. Quick math says she collected 100,000 cans!

HDSA Board of Trustees

Dr. Victor Sung has seamlessly stepped into his new role as Chair of HDSA’s National Board of Trustees after E.J. Garner served her two-year term. HDSA thanks E.J. for her amazing work as Chair as well as Dr. Don Higgins, Dr. Arik Johnson, and Dan Vandivort who have also finished their time on HDSA’s Board of Trustees.

HDSA welcomes new Board members Angela Allen, Mark Coe, Dr. Erin Ferr-Stimming, Kelsey Porter and Dominique Thomas.

You can view #LetsTalkAboutHD with Yousef Gamal El-Din on HDSA’s YouTube channel.

NYA Adopts a New Logo

HDSA’s National Youth Alliance (NYA) received a makeover with a new logo as this inspiring group continued their mission to improve the lives of young people affected by HD and their families. Learn more about HDSA’s National Youth Alliance by visiting HDSA.org/NYA.

#GivingTuesday

Thanks to the generosity of the HD community, more than $146,500 was donated to support HDSA’s fight against Huntington’s disease during the two #GivingTuesday initiatives in 2020.

#GivingTuesdayNow in May raised $73,000 while #GivingTuesday in December garnered more than $73,500!

Additionally, HDSA staff members Allison Barbott, Deb Boyd, Chris Cosentino, Jamison Skala and Louise Vetter represented TEAM HDSA during the Global Gateway Advisors Charity Trivia Night on #GivingTuesday in December. The team was crowned the tournament champion and won $4,750 for HDSA!

• Twitter: twitter.com/HDSA
• Instagram: instagram.com/HDSANational/
• YouTube: hdsa.org/youtube
• LinkedIn: linkedin.com/company/huntington’s-disease-society-of-america/
Impressively, participants from 93 nations around the world participated in the global online experience.

On Friday, the education and support sessions began and included all the popular presenters normally seen at an HDSA Convention. Dr. Ed Wild and Dr. Jeff Carroll from HDBuzz.net delivered another entertaining and very informative “Ask the Scientists Anything” session. The virtual workshop was so successful that HDSA and HDBuzz will produce more throughout the year on a regular basis. Friday night was capped off with the NYA Talent Show hosted by Jennifer Simpson, LCSW and Katie Moser.

HDSA scheduled forty sessions over the four-day Virtual Convention, and the HD Community came out in full force. More than 1,500 unique email registrants joined the Convention, and on average, there were 345 viewers per session.

On the fourth and final day of the Virtual Convention, more sessions and support groups were conducted with incredible attendance numbers. The culminating event was the presentation of HDSA’s National Awards to HDSA South Carolina Affiliate (Affiliate of the Year), Autumn Furniss (Youth/HJD Award), Massachusetts & Rhode Island Chapter (Chapter of the Year) and Jennifer Brown (Person of the Year); Marjorie & Woody Guthrie’s daughter, Nora Guthrie made a surprise appearance to present Bill Kline with the Woody Guthrie Award and Jack Griffin with the Marjorie Guthrie Award. The Closing Ceremony concluded with the emotional Candle Lighting Ceremony where HDSA recognized the entire HD Community and then a fun-filled virtual dance party.

Throughout the four-day Virtual Convention attendees had the opportunity to connect on the HDSA Convention app, as well as visit the Virtual Exhibit Hall.

Thank you to everyone who attended and supported the Virtual 35th Annual HDSA Convention!

To view all recorded Convention sessions, please visit HDSA.org/convention.
May: Huntington’s Disease Awareness Month

HDSA kicked off Huntington’s Disease Awareness Month in May with a Virtual Team Hope Walk event. During HD Awareness Month, several celebrities, athletes, musicians and influencers used their platforms to raise much-needed awareness by participating in the #LetsTalkAboutHD campaign. Some notable new supporters included stars of All Elite Wrestling (AEW) including Brandi Rhodes, AEW’s Chief Brand Officer; actor Patrick Warburton (Seinfeld, Family Guy); rock musician Brett Scallions and many more.

Supporters from across the globe came together to recognize HD Awareness Month. On May 15th, HDSA collaborated with multiple international HD organizations to celebrate International HD Awareness Day.

The #LetsTalkAboutHD videos can be seen on HDSA’s YouTube Channel at HDSA.org/youtube.

The Marjorie Guthrie Society

Until the day when scientists find a cure for HD, families across the country require access to the crucial research, care, education, and advocacy programs HDSA provides. The Marjorie Guthrie Society ensures that as we look to the future we’ll have the resources we need to continue providing help and hope to the HD community.

By including HDSA in your estate plans as the beneficiary of insurance, real estate, appreciated securities, or retirement plan you can create a legacy of giving that guarantees future generations will have the vital support they need to confront this devastating illness. With the help of a financial planner, you can arrange your gift in a way that reduces your estate taxes and has the strongest possible impact on the lives of those affected by HD in the decades to come.

To learn more about the Marjorie Guthrie Society, or to inform us of your estate plans to support HDSA, please contact Jamison Skala, Director of National Development, at (212) 242-1968 ext. 235 or jskala@hdsa.org.

Join us in thanking the following individuals who have committed to support HDSA through their estate plans:

- Anonymous (3)
- Norman Baldwin
- Jerzy Gajewski
- Catherine Hayes & Mark Wiesel
- Dr. Barbara Heere
- Daniel & Katy Leonard
- Mark Pinto
- Gordon Sparks
- Craig & Teresa Srajer
