

Interview Participants Needed

Scientists are working on genetic therapies for Huntington's disease. We are interested in your thoughts.

Interview study participation involves a one-hour phone call with someone from our team.

 pasagestudy@mayo.edu

TELL US WHAT YOU THINK

ABOUT US

We are social scientists and bioethicists studying the possible impact on families and communities of genetic therapies that might become available in the future.

WHO CAN PARTICIPATE?

If you have a family history of Huntington's disease, we would like to know your thoughts.

EVERY EXPERIENCE MATTERS

We know people have very different feelings about potential treatments. No matter how you feel, we are interested in hearing from you.

If you would like to take part in our interview study, please email pasagestudy@mayo.edu, or scan this QR code with your phone's camera:
